

Jak to zrobić?

Przechodzimy pod adres naszego Raspberry na domyślnym porcie CUPS 631:

Jak to zrobić?

W zakładce Printers powinna być widoczna nasza drukarka:

The screenshot shows a web browser window with the title "CUPS Printers - CUPS 2.2.1". The address bar displays "192.168.1.156:631/printers/". The navigation bar includes links for "CUPS.org", "Home", "Administration", "Classes", "Help", "Jobs", and "Printers". The main heading is "Printers". Below it is a search bar labeled "Search in Printers:" with "Search" and "Clear" buttons. The text "Showing 3 of 3 printers." is displayed above a table. The table has five columns: "Queue Name", "Description", "Location", "Make and Model", and "Status". The first row is highlighted with a red border. The footer contains the text: "CUPS and the CUPS logo are trademarks of Apple Inc. Copyright © 2007–2015 Apple Inc. All rights reserved."

Queue Name	Description	Location	Make and Model	Status
Brother_HL-5350DN_series	Brother HL-5350DN series		Brother HL-5350DN BR-Script3	Idle
Brother_HL_5350DN_series	Brother HL-5350DN series @ MacBook Pro	MacBook-Pro.local (Port: 631)	Remote printer: Brother HL-5350DN series CUPS	Idle
MFCJ880DW	MFCJ880DW		Brother MFC-J880DW CUPS	Idle
