

Jak to zrobić?

Tak będzie wyglądał nasz plik:

The image shows a code editor window titled 'resin-wifi' with a status bar indicating 'UNREGISTERED'. The editor displays a network configuration file with the following content:

```
1 [connection]
2 id=resin-wifi
3 type=wifi
4
5 [wifi]
6 mode=infrastructure
7 ssid=Jonatan 2.4 GHz
8
9 [wifi-security]
10 auth-alg=open
11 key-mgmt=wpa-psk
12 psk=
13
14 [ipv4]
15 method=auto
16
17 [ipv6]
18 addr-gen-mode=stable-privacy
19 method=auto
20
```

The status bar at the bottom shows 'annotations(ok), Line 1, Column 1', 'Tab Size: 4', and 'Plain Text'.

Jak to zrobić?

Wkładamy kartę microSD i podłączamy zasilanie
